After School Program - Volunteer Information

Thank you for your interest in volunteering at Edward M. Kennedy Academy!

Our after school program is made possible through the contributions of tutors and mentors from local colleges. Our goal is to provide a space for all students to find academic support and guidance. We recognize that everyone has different learning styles and encourage innovative teaching methods that support students holistically. By sharing your experience and knowledge, you can be a role model to high school students on their future college and career paths. We are a small, inclusive community, and welcome volunteers with diverse backgrounds and perspectives.
